

I can find the perimeter and area of squares and rectangles.

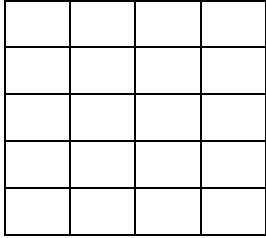

Write the perimeter and the area of each shape.

P = \_\_\_\_\_ A = \_\_\_\_\_

P = \_\_\_\_\_ A = \_\_\_\_\_

P = \_\_\_\_\_ A = \_\_\_\_\_

Score

I can identify acute, right and obtuse angles.

Draw an acute angle.

Draw an obtuse angle.

Draw a right angle.

Score

I can rapidly recall multiplication and division facts for the 9 times tables.

Fill in the missing numbers in the box.

$$9 \times \square = 36$$
$$\square = 45 \div 9$$
$$9 \times \square = 180$$
$$\square = 18 \div 9$$
$$9 \times \square = 270$$
$$\square = 90 \div 9$$
